ASC Event	Trigger	Custom Dimensions
asc_comm_engagement	Begin to unlock the price option	<pre> comm_status: 'start', comm_type: 'unlock_pricing', </pre>

## Proactive Message Reply Clicked

ASC Event	Trigger	Custom Dimensions
asc_cta_interaction	Chat prompt "reply" clicked	<pre> element_color: "", element_order: "", element_text: 'reply', element_type: 'chat_tool', event_action: 'click', event_action_result: 'start', link_url: "",                     </pre>

## Submit Trade In (formally conversations sent to crm)

ASC Event	Trigger	Custom Dimensions
asc_comm_engagement	When a Trade in flow is completed	<pre> comm_status: 'engage', comm_type: 'form', department: 'trade',                     </pre>

## Leave A Message Form Engage

ASC Event	Trigger	Custom Dimensions
asc_comm_engagement	Fires when no agent is available and the Leave a Message Form is started	<pre> comm_status: 'engage', comm_type: 'form',                     </pre>

\*\* = conversion event

## Leave A Message Form Submit

ASC Event	Trigger	Custom Dimensions
asc_comm_submission	Fires when no agent is available and the Leave a Message Form is submitted	comm_status: 'send_deal', comm_type: 'form', department,
asc_comm_submission_\${department}	Fires when no agent is available and the Leave a Message Form is submitted	comm_status: 'send_deal', comm_type: 'form', department,

## Send to SMS Long

ASC Event	Trigger	Custom Dimensions
asc_comm_submission	Fires long form event when SMS Long Form is submitted.	comm_status: 'send_deal', comm_type: 'sms', department,
asc_comm_submission_\${department}	Fires long form event when SMS Long Form is submitted.	comm_status: 'send_deal', comm_type: 'sms', department,

## Send to SMS Short

ASC Event	Trigger	Custom Dimensions
asc_comm_submission	Fires short form event when phone number is submitted.	comm_status: 'send_deal', comm_type: 'sms', department,
asc_comm_submission_\${department}	Fires short form event when phone number is submitted.	comm_status: 'send_deal', comm_type: 'sms', department,

## Lead Gate

ASC Event	Trigger	Custom Dimensions
asc_comm_submission	Fires when the user's name and phone or email is collected from the bot or agent	comm_status: 'send_deal', comm_type: 'form', department,
asc_comm_submission_{\$department}	Fires when the user's name and phone or email is collected from the bot or agent	comm_status: 'send_deal', comm_type: 'form', department,

\*\* = conversion event

## Parameters

are the additional data points, collected/associated with events, allowing for deeper analysis/insights into the performance of Online Shopper. For example, on a sales form event (asc\_form\_submission\_sales), we will also pass along the vehicle information through parameters (such as vin, make, model, year...) if your website has the asc\_datlayer.

While parameters are being passed with the events, they (parameters) need to be registered as **Custom Dimensions** within GA4 in order to have access to the additional data within the GA4 interface.

Below is all the parameters which are associated with Online Shopper events. Parameters notated with a \* are the parameters DI has registered as custom dimensions in our DI managed GA4 properties.

PARAMETERS/ CUSTOM DIMENSION	PARAMETER DEFINED	EXAMPLE VALUE
event_owner *	Who is triggering the event	conversations
department *	Department associated with the event	sales
flow_outcome *	If event action resulted in an specific outcome that was part of a flow	Viewed, finished, added
item_payment	Payment shown, or selected which is associated with the event	loan
item_id *	VIN Number	4Y1SL65848Z411439
event_action	What action was taken for the event	click

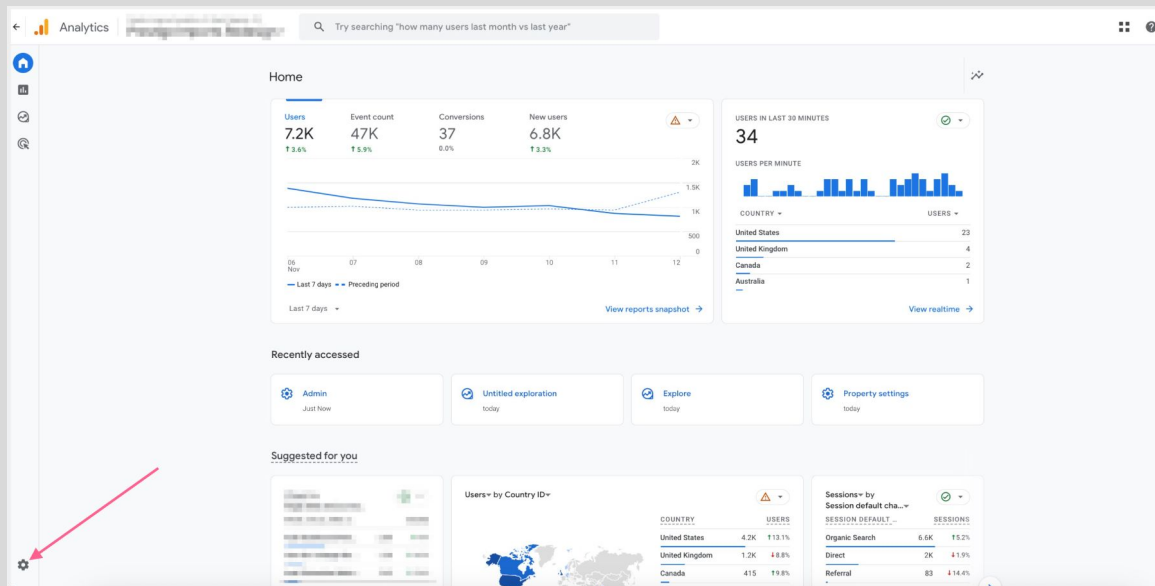

\* = parameter is recommended to be set up as a Custom Dimension

\*\* = conversion event

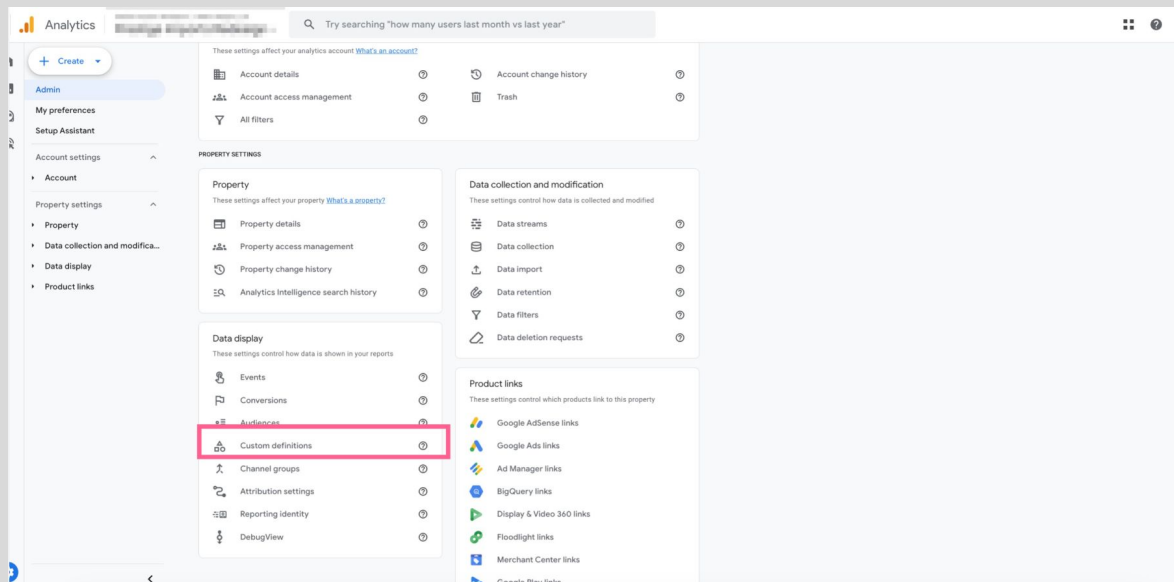

PARAMETERS/ CUSTOM DIMENSION	PARAMETER DEFINED	EXAMPLE VALUE
item_number *	Stock Number	1234567890
item_price *	Price of the vehicle	28000
item_condition *	Industry condition of item associated with event	new
item_year *	Year of the vehicle	2023
item_make *	Make (Brand) of item associated with event	ford
item_model *	Model of item associated with event	f-150
item_variant *	Specific trim of the vehicle	sport
item_type *	Body style of vehicle	sedan
comm_type *	Type of communication that took place	form
form_name *	Name of the form that was filled out	conversations
comm_status	Communication stage	engage
element_text	The value of what was interacted with	minimize_messenger
element_type	What is being interacted with	chat_tool
event_action_result	What is the result of the action that took place	close

## Please follow these steps to set up custom definitions in a GA4 property:

- Go to admin

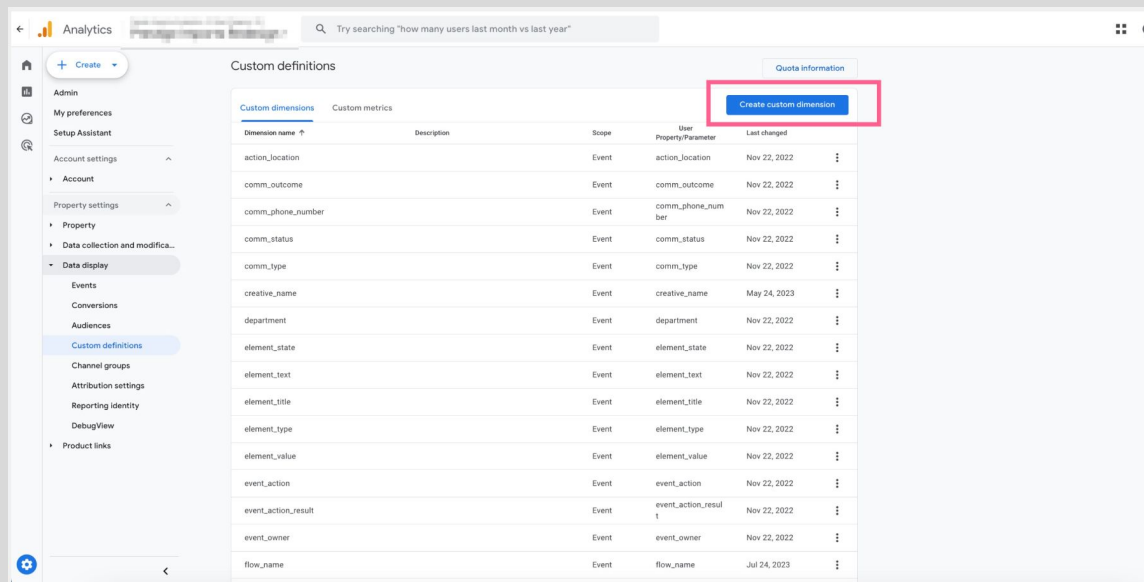

- Under 'Data display' click 'Custom Definition'

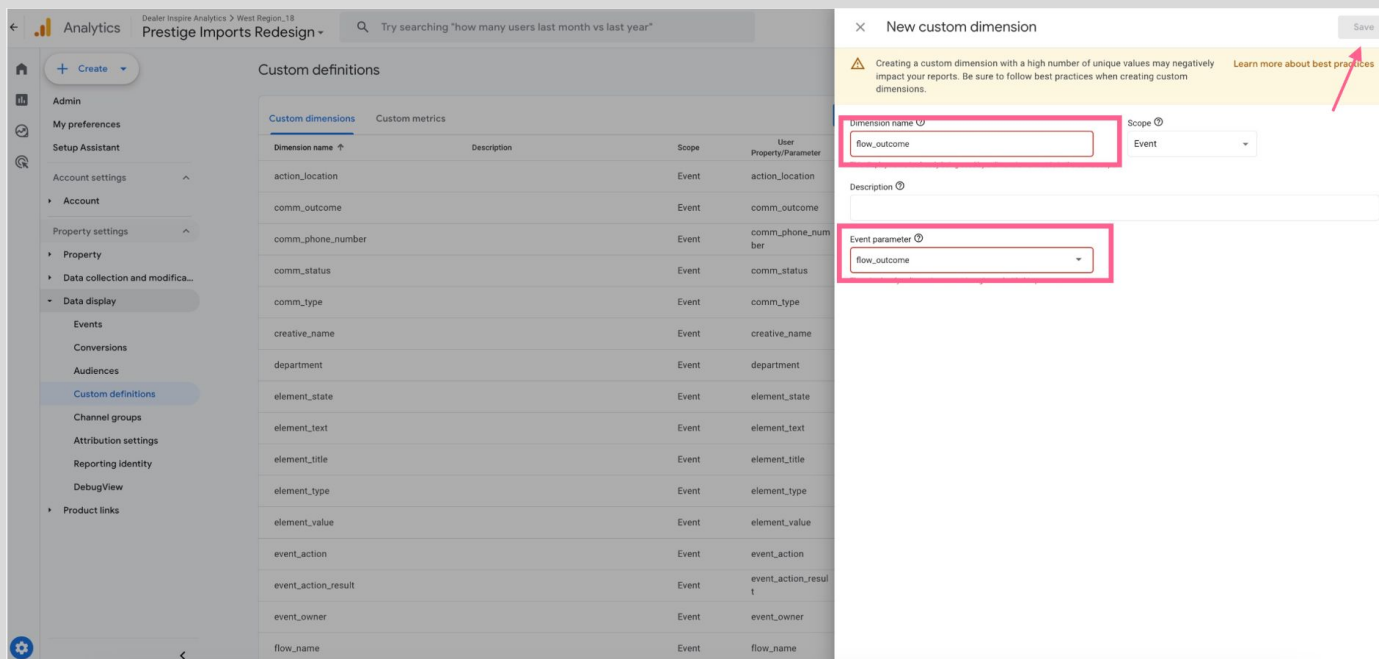

The screenshot shows the Google Analytics Admin interface. The left sidebar is expanded to 'Admin', and the 'Data display' section is selected. The 'Custom definitions' option is highlighted with a red box. The main content area shows various settings for the analytics account and property, including:

- Account settings:** Account details, Account access management, All filters, Account change history, Trash.
- PROPERTY SETTINGS:**
  - Property:** Property details, Property access management, Property change history, Analytics intelligence search history.
  - Data display:** Events, Conversions, Audiences, Custom definitions (highlighted), Channel groups, Attribution settings, Reporting identity, Debug/view.
  - Data collection and modification:** Data streams, Data collection, Data import, Data retention, Data filters, Data deletion requests.
  - Product links:** Google AdSense links, Google Ads links, Ad Manager links, BigQuery links, Display & Video 360 links, Floodlight links, Merchant Center links, Google Play links.

- Click on 'Create Custom Dimensions' button

- Fill out the dimension name (in this example we are using 'flow\_outcome') and choose the parameter that correlates. Then click 'Save'

Below are the events you'll receive from Online Shopper along with the associated parameters.

*\*Please note that if a parameter is not available or does not apply for that specific event, it will be passed as a blank value.*

EVENT	ASSOCIATED PARAMETERS
asc_cta_interaction	event_owner page_type element_text element_color element_order element_type event_action event_action_result link_url item_id item_number item_price item_condition item_year item_make item_model item_variant item_color item_type item_category item_fuel_type item_inventory_date
