

VinDow Chrome Extension

Troubleshooting VinDow

Some AccuTrade users are having trouble logging into the VinDow extension using the Google Chrome browser. This issue is caused by a recent experimental feature released by Google.

You can work around this issue by following these instructions:

1. Copy and Paste the following URL into your Chrome Browser (do not click the link):
chrome://flags/#third-party-storage-partitioning
2. Disable the **Experimental third-party storage partitioning** field
3. Click **Relaunch**

1

COPY

chrome://flags/#third-party-storage-partitioning

Copy the URL

PASTE

Paste into Chrome Browser

2

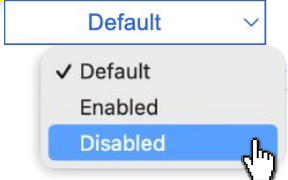

Experimental third-party storage partitioning.

The URL will take you straight to the correct header, highlighted in yellow.

Default

- ✓ Default
- Enabled
- Disabled

Click the dropdown and change to Disabled.

3

Relaunch

Click Relaunch at the bottom right corner of your screen
