Dealer Inspire has your Google Analytics 4 (GA4) property tracking and you're ready to look into the property yourself, but you do not have a Google account linked to the email/account you would like to use.

Google does not allow us to give access to a GA4 account if the email is not linked to a Google account. This resource will provide you step-by-step instructions on how to link a non-Google account (Yahoo, Outlook, AOL, Dealership Accounts, etc.) to your Gmail account.

To begin, you will need to log into your personal Gmail account. If you do not yet have one, you will need to make one in order to have an account linked to Google.
